

**My name is xxx and I am a confident, respectfull and caring person standing up for beaches.**

When I was in snowdrops I was elected for class councillor; therefore, I am experienced in the role of a class councillor, so I know what to expect. I have been part of Windy Nook community since I was two and I truly understand the values and facilities of our school. My family are very hard working people ;furthermore, I have been taught all of the responsibilities of a job. I am a very dedicated person.

For too long, people who play football at Windy Nook will understand the exhaustion of running down the hill to get the football. Following this up, we need to get a half decent football. On the other hand, we need less homework: we do enough work in school.

If you were to vote for me as class councillor, I would work my hardest to fix all of these issues. We will work together for change so please vote for me.
