

Vote For Change

For many years, people of windy nook have been struggling and suffering due to the cold ice floors outside. Many poor children are coming home with soar legs or grass stains from the lack of benches in the playground. When its lunch children should be able to be free and eat lunch in peace without getting soggy pants.

When I was younger I joined the windy nook primary school community at the age of two, ever since then I did and still do love this school. That's why I would be proud to represent it and take on the responsibilities. I would dedicate myself for this role and I am hundred percent committed.

Issues I can solve:

- . Beaches, for lunch;
- . Football nets, for brake;
- . Playground equipment.

If you vote me I can make a change, a change would like. I can listen to your opinion, fight for your opinion and make your opinion happen
