A kind, caring, respectful, class councillor standing up beeches

When I was in Elms I was a rights respecting champ; Evan though I had a teammate (rights respecting partner) I still worked hard. Therefore I'm experienced and no the roles to becoming our class councillor. Since I have been a character of this school for 8 years now so I know all the rules and I can be sensible but I listen to them all to.

Ever since I started having homework, there have been children suffering because of the excessive amounts of it. I will save you all, and no man or woman will ever suffer again. One key problem is there is not enough indoor play equipment, so if you vote for me your going to have a party when its raining. Furthermore, people are complaining that there's no football nets and I'm here to make it happen.

If you elect me, you can tell me your views and I will make it and fight for what for what issues matter to you . I will do my job and you just wait for your future . We can work together for this moment
