## THE HAUNTING OF LEDSHAM

What do you think:  
Ghost or no Ghost?

By ELLEN

A young boy called James Harrison has informed us of strange goings on at East End Cottage. James and his family have just moved into the cottage but he is the only one to experience ghostly events.

Earlier this evening, we talked to James on why he claims there is a ghost at East End Cottage. He says that the ghoul has been following him and doing mischievous things to get him into trouble, like smashing his mum’s favourite vase!

James has asked Bert, a ghost specialist, to help him with his ghost problem.

We also talked to Bert to see if he could give more information on the poltergeist that is haunting James.

### Are ghosts really real?

This is what he told us: “Last week, James asked me to help him with a ghost problem he has been having. I obviously said yes to the challenge because I have hunted many ghosts before. Also I have a special machine to help me hunt these ghouls down. It is called the ‘Ghost 3000’. Some people don’t believe in ghosts but they’re real. I am telling you they are.”

We then talked to James’s mother, Mrs Harrison, who gave us some further details of the situation. This is what she said “My son James has a big imagination and he is probably doing it for attention, knowing him. He claims there is a ghost following him and haunting the house. He is such a silly boy! I am telling you GHOSTS ARE NOT REAL! James is probably doing this with his friends to try and mess with us. Apparently, his friend Bert has developed a ghost hunting machine. Like that even exists! Don’t believe him he’s just a boy, who would!”
