THE OLDE ENGLISH GHOSTE

A young-school boy,at the age of ten-year-old thinks he is being targeted by a ghost with monstrous mayhem. What will happen next?

I interviewed James to ask about the ghost and its doings.The boy said he is called Thomas Kemp and usually is quiet when other people around but not when there isn't.Apparently he likes to slam doors,smash vases,write notes in red writing and smash the poor kids belongings.The young questioned boy said nobody believes him and that he always gets the blame for the ghost actions.

Now, it's Mrs. Harrison's go, she says that she loves James but thinks he is going a little crazy. "i'm punishing him,taking his toys, not letting him leave his room but nothing is working.But i am worried that something is happening because he keeps going on about something like Thomas Kemp?but i don't know what he is talking about and he is also speaking of ghosts?but i don't believe him".

Bert Elisson, a builder,decorator and so called exorcist has been around to cure the case, he claimed that the boy is telling the full truth and doesn't come around like a boy who fibs. "As a builder, i have some stuff that can be useful to catch a ghost," the middle aged man said rolling up a cigarette and putting it in the corner of his mouth, "the boy don't need punishing and his mum is too hard on him.After all he isn't lying.
