BY (MILLIE)

Recently, a young boy named James Harrison has been speaking about a ghost at East End Cottage.

We started off by interviewing the boy outside his house. He has witnessed pots being broken, models being smashed and awfully weird messages being written. He is the only one who believes that there is a ghost in his household. He has stated that he has spoken to Burt Ellison (the ghost catcher) and Burt was trying to get rid of this poltergeist.

East End Cottage

We Managed to interview Mrs Harrison even though she doesn't even think that there is a ghost. She just thinks James was lying and just wants attention. She wants to prove to everyone that there isn't a ghost and that James has been doing those things himself. So she constantly tells James off because of the ghost. “My james wants me to believe him and that there really is a ghost but i don't because james is always up to something with him being so mischievous” MrsHarrison stated herself

Yesterday, we interviewed Burt Ellison himself. He told us that the ghost just wouldn't come out. He was really relaxed about it and is going to try again tomorrow.

We really hope that Burt Ellison can catch that ghost not only for Mrs Harrison to believe James but for it to stop destroying the lovely house itself. The ghost must really not like the harrisons for living in the house. If it wasn't for burt what would the harrisons have done.

If YOU want to help find this ghost call 088 645 832 and help the Harrisons live peacefully once again in a lovely house.
